Data Sheet for the General Public

Ingredient information pursuant to Regulation (EC) No 648/2004 (Detergents Regulation), Annex VII, Section D

ARKA® Pipi-Weg	
Manufacturer / placed on the market by:	ARKA Biotechnologie GmbH Mühllach 53-55, 90552 Röthenbach a. d. Pegnitz, Germany www.arka-biotech.de · info@arka-biotech.de
Products covered:	ARKA® Pipi-Weg Dog / Cat / Rodent 750 ml (PGD750, PGC750, PGR750) ARKA® Pipi-Weg Dog / Cat / Rodent 100 ml (PGD100, PGC100, PGR100)
Product type:	Ready-to-use microbial cleaning product (consumer product)
Date:	16.06.2026 (Version 2.0)

Note: *The products listed are identical in formulation. This data sheet lists all intentionally added ingredients in descending order of their weight share. Impurities are not considered ingredients.*

Ingredients

Ingredient (INCI / name)	CAS No.	Function
Aqua (Water)	7732-18-5	Solvent / carrier
Non-ionic surfactants (C9-C11 alkyl alcohol ethoxylate)	68439-46-3	Surfactant
Parfum	not applicable	Fragrance
Microorganisms (bacterial blend of risk group 1)	not applicable	Microbiological active component
Benzyl Salicylate	118-58-1	Fragrance (declarable fragrance allergen)
Benzisothiazolinone (1,2-benzisothiazol-3(2H)-one)	2634-33-5	Preservative
Methylchloroisothiazolinone, Methylisothiazolinone	55965-84-9	Preservative

Notes

Preservatives are listed regardless of their concentration. Allergenic fragrances present at a concentration above 0.01 % by weight are listed by their INCI name: in this product this applies to Benzyl Salicylate. The other allergens contained in the fragrance (Parfum) are below this threshold.

The product contains microorganisms of risk group 1 pursuant to Directive 2000/54/EC (bacteria that generally do not cause disease in humans).

For the general public, Annex VII, Section D does not require weight percentage ranges to be stated. The detailed weight ranges of the ingredients (Section C) are provided to medical personnel promptly and free of charge on request; requests should be sent to the contact details given above.

Internet address of the ingredient list: This ingredient list is freely accessible, without access restrictions, at www.arka-biotech.de; the internet address is stated on the packaging.

This data sheet serves solely to inform the public about the ingredients in accordance with the Detergents Regulation. Safety and handling instructions can be found in the safety data sheet of the respective product. The information corresponds to our current state of knowledge.
