Data Sheet for the Public

Ingredient information in accordance with Regulation (EC) No 648/2004 (Detergents Regulation), Annex VII Part D

ARKA® KRAFTPROTZ Enzymreiniger

Manufacturer / party placing on the market:	ARKA Biotechnologie GmbH Mühllach 53–55, 90552 Röthenbach a. d. Pegnitz, Germany www.arka-biotech.de · info@arka-biotech.de
Product identifier:	ARKA® KRAFTPROTZ Enzymreiniger (product number KPEZR750)
Product type:	Ready-to-use microbiological cleaner (consumer product)
As at:	16/06/2026 (Version 2.0)

Note: *This data sheet lists all deliberately added ingredients in descending order of their weight fraction. Impurities are not regarded as ingredients.*

Ingredients

Ingredient (INCI / name)	CAS No.	Function
Aqua (Water)	7732-18-5	Solvent / carrier
Non-ionic surfactants (C9–C11 alkyl alcohol ethoxylate)	68439-46-3	Surfactant
Parfum	—	Fragrance
Microorganisms (Risk Group 1 bacterial blend)	—	Microbiological active component
Benzyl Salicylate	118-58-1	Fragrance (declarable fragrance allergen)
Benzisothiazolinone (1,2-benzisothiazol-3(2H)-one)	2634-33-5	Preservative
Methylchloroisothiazolinone, Methylisothiazolinone	55965-84-9	Preservative

Explanations

Preservatives are listed regardless of their concentration. Allergenic fragrances present at a concentration above 0.01 % by weight are listed by their INCI name – in this product this applies to Benzyl Salicylate. The other allergens contained in the fragrance (Parfum) are below this threshold.

The product contains Risk Group 1 microorganisms in accordance with Directive 2000/54/EC (bacteria that do not normally cause disease in humans).

For the public, the indication of weight-percentage ranges is not required under Annex VII Part D. The detailed ingredient weight-fraction ranges (Part C) are made available to medical personnel on request, promptly and free of charge; requests should be directed to the contact details given above.

Internet address of the ingredient list: This ingredient list is freely accessible without restriction at www.arka-biotech.de; the internet address is given on the packaging.

This data sheet serves solely to inform the public about the ingredients in accordance with the Detergents Regulation. Safety and handling information is given in the safety data sheet of the respective product. The information corresponds to our current state of knowledge.
